

Before Starting the Treatment at Valeda- DAY-1

- **Female's Age- 37 Years**
- **Problem Since- 8 Years**
- **Previous Treatments- Waxing/ Plucking and/ or Threading with daily frequency**
- **Growth- The externally available hair are less than 10% of total active follicles in this skin segment. Notice the thick terminal hair that have bulbous roots.**
- **Skin Condition- Sensitive, Prone to Adult Acne, Existing Acne and with Scars from previous pulling sessions.**

1st Clearance in Process-DAY- 21

Before Treatment - Day-21

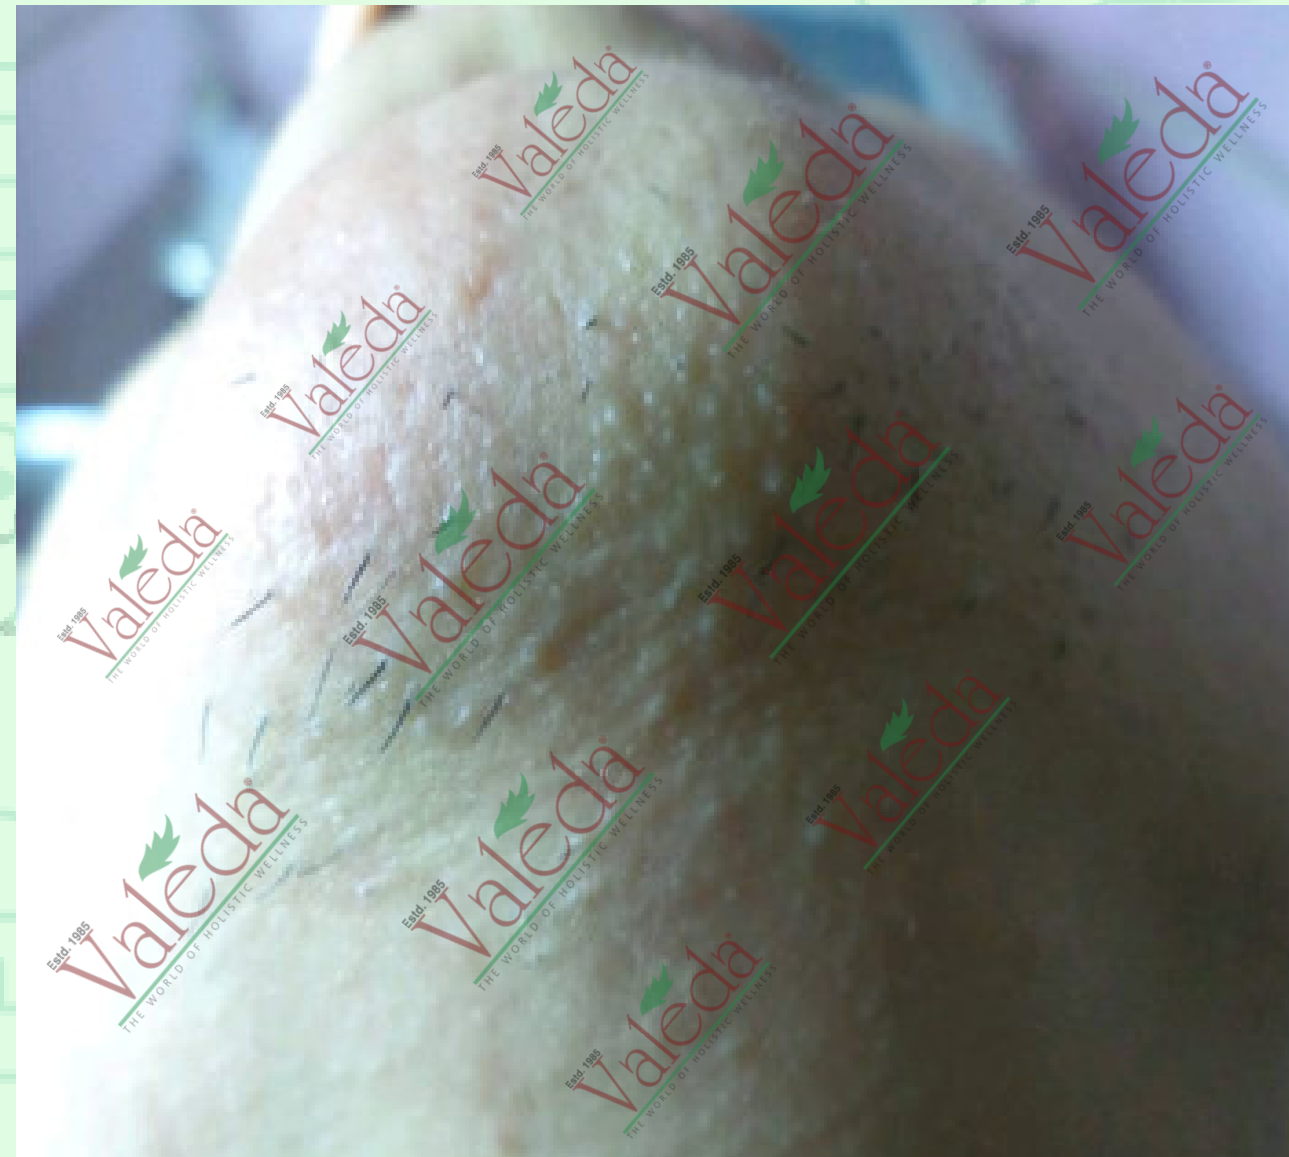

After Treatment - Day-21

Treatment Remarks: Patient came with thick terminal bulbous hair in Chin, Under chin and Side face areas. She is working woman with previous history of daily plucking/ waxing, so Valeda Doctors advised her to visit every third day for initial short sessions. In this picture the initial clearance continues and post treatment the immediate redness & swelling/ oedema is temporary and is normal that will fade within couple of days. The peeling film like structure in 'After' picture is remain of the numbing gel.

2nd Clearance in Process- DAY-152

Before Treatment-Day-152

After Treatment-Day-152

Treatment Remarks: On Day 152 during 2nd clearance, there is further decrease in hair available for treatment. Patient shows no sign of immediate redness and the previous temporary signs have also subsided. Notice the post acne scars and some hyper sebaceous activity showing as pimples that have the reasons independent of the treatment for unwanted hair.

2nd Clearance in Process- DAY-182

Before Treatment-Day-182

After Treatment-Day-182

Treatment Remarks: On Day 182 the 2nd clearance continues with further decrease in hair available for treatment. The red marks before the treatment are from the acne which erupted due to reasons not connected with the unwanted hair treatment procedure. Parallel treatment for Acne and Post Acne scars also prescribed.

3rd Clearance in Process- DAY-197

Before Treatment-Day-197

After Treatment-Day-197

Treatment Remarks: On Day 197, the 3rd clearance continues and the Acne and Post Acne scars seen in previous session, two weeks back, have started subsiding . Negligible number of hair are available for unwanted hair treatment today.

3rd Clearance in Process- DAY-212

Before Treatment-Day-212

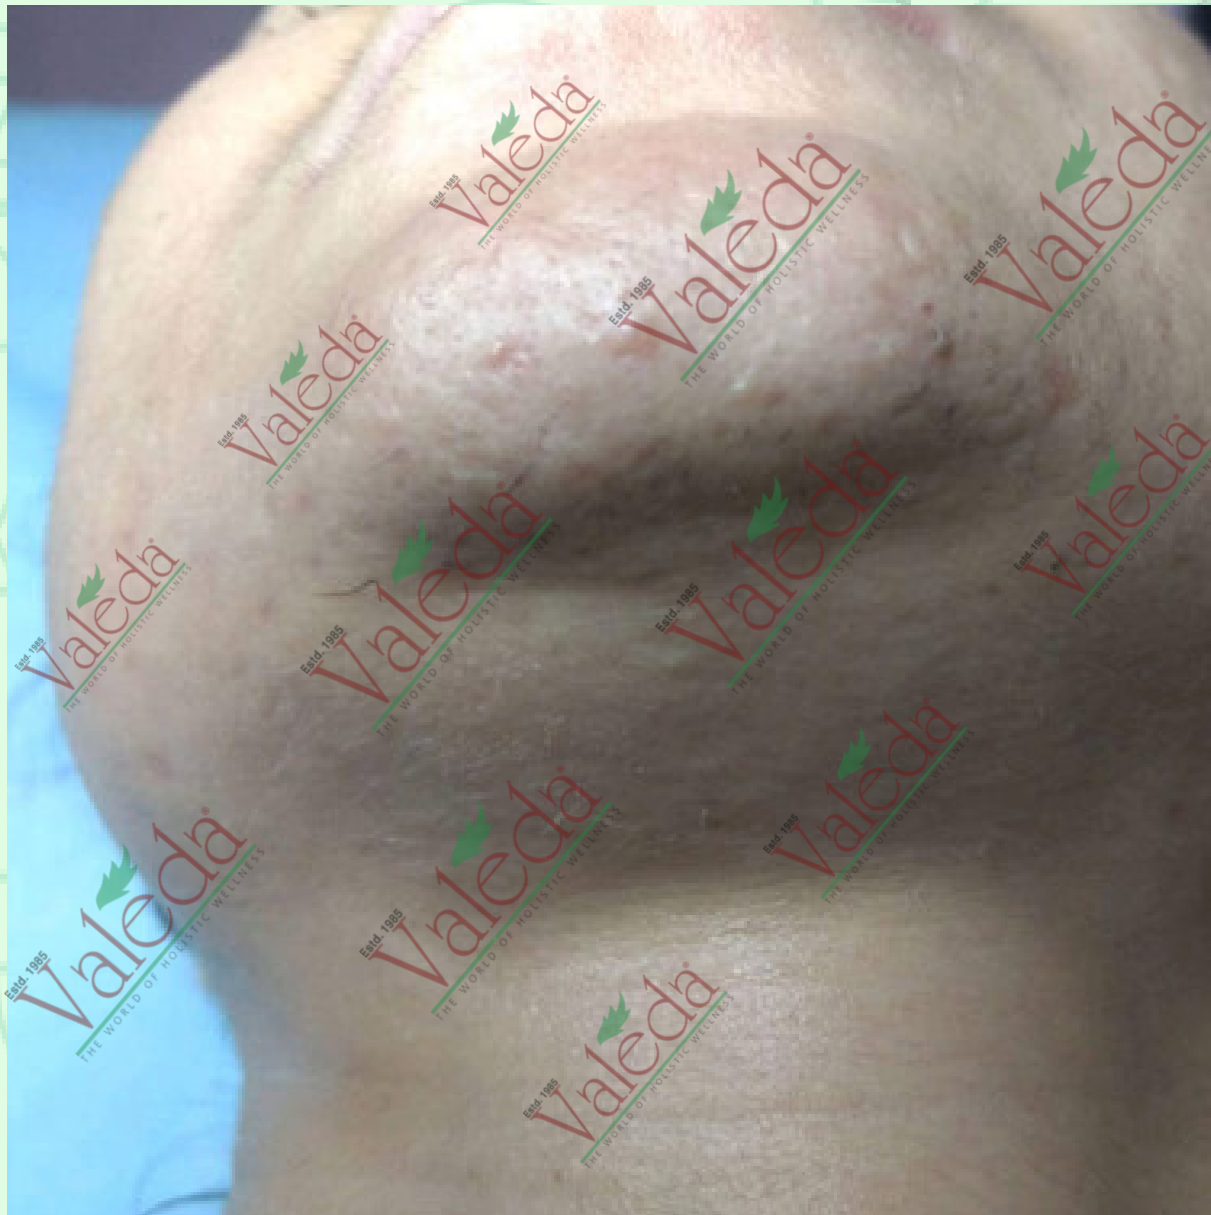

After Treatment-Day-212

Treatment Remarks: On the day 212 just after two weeks from the last session the skin is getting further clear and number of hair available for treatment and residual redness is fast wading off.

4th Clearance in Process- DAY-243

Before Treatment-Day-243

After Treatment-Day-243

Treatment Remarks: On the day 243 just after two weeks from the last session the skin is getting further clear and number of hair available for treatment and residual redness is fast wading off.

4th Clearance in Process- DAY-273

Before Treatment-Day-273

After Treatment-Day-273

Treatment Remarks: On day 273 its the 30 days gap since last treatment session. Just few hair have sprouted and are available for treatment. Today skin clearing first aid session was given. After fourth clearance, patient is visibly happy today as her problem is over. The improvements are very obvious.

Treatment Complete!

Hair Gone Forever! Shall never come again in lifetime. Notice the bright unblemished beautiful clear and fair skin. The treatment success counted on the unfathomable patient support through her faith in the Valeda Electrolysis Blend Holistic Combination Mode and her compliance to the prescription. Best wishes.
